

WE ARE COMMITTED...

We are committed to ensuring our high quality work **contributes to the protection of children everywhere.**

We have the audacity to dream and the **daring to get it done.**

We are vision holders who carry the beautiful burden of possibility for a better world.

We are guided by purpose, and say yes to **love, hope and courage.**

We aim to land softly and commit to **do no harm** while humbly acknowledging - **We do make an impact.**

We bear witness to the disparities and the darkness of humanity - including our own.

We value equality, prosperity, and justice and **we strive to serve with compassion.**

We immerse ourselves in the unfamiliar.

We embrace the complexities and the challenges and the journey of the roads less travelled.

Outwardly and inwardly in service and in hope...

For a better and more positive world for all...
